

INSTALLATION INSTRUCTIONS

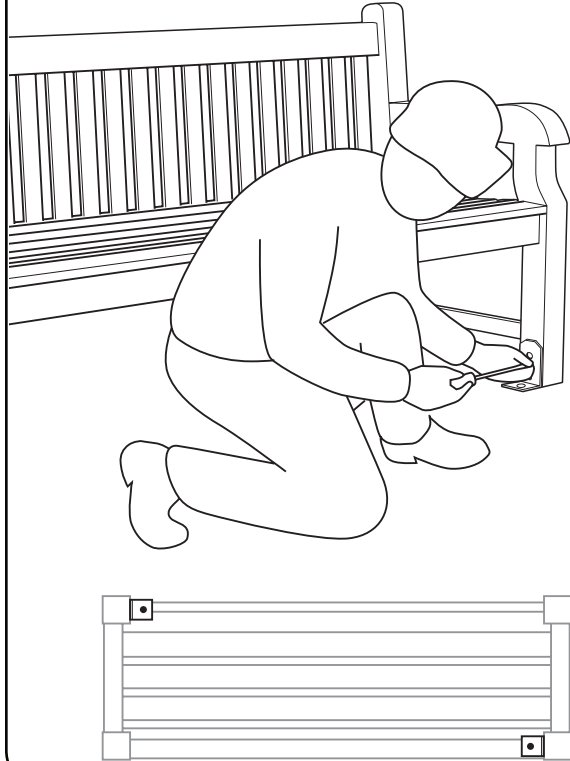

ANCHOR KIT EA103

Components- 2 x Bench Brackets
2 x Expanding Bolts
4 x CrossPoint Screws
4 x Anti-vandal Screws

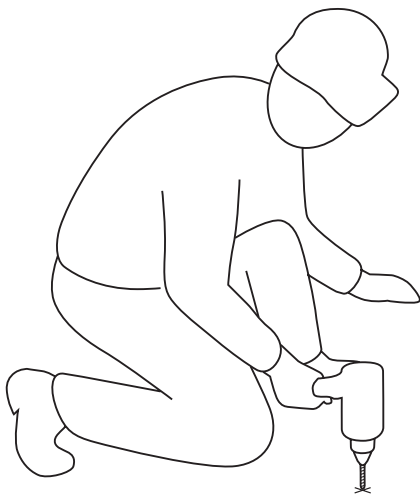

Fix 2 bench brackets to the inside of seat legs, diagonally. Mark hole positions through bench brackets, drill 2 pilot holes: 3mm dia x 45mm deep. Fix brackets using either crosspoint or vandal resistant screws.

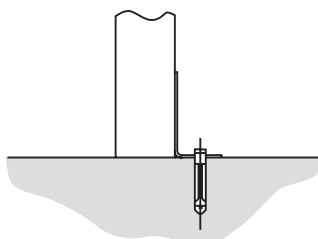

1

2

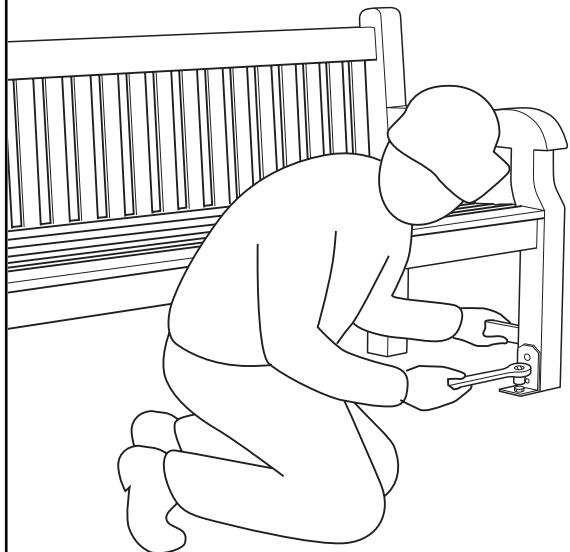

Position seat.
Mark ground position
through bracket.
Move seat aside and drill
12mm hole, approximately
110mm deep.

With the fixing nut positioned as per the component drawing, re-position seat and fit bolt insert through the bracket. A hammer can be used to assist placement. Fully tighten both bolts.
